Q1 2012 – Performance Polymers key driver to strong EBITDA increase

Total group sales and EBITDA figures include reconciliation; references to EBITDA are pre exceptionals

LANXESS

Performance Polymers: EBITDA growth with strong margin

[€ m]	Q1 2011	Q1 2012
Sales	**1,084**	**1,391**
EBIT	165	206
Depr. / Amort.	34	48
EBITDA	199	254
EBITDA pre exceptionals	**199**	**255**
Margin	18.4%	18.3%
Capex*	**40**	**63**

- Sales increase due to strong pricing and portfolio contribution
- Price increases successfully offset raw material inflation
- BUs BTR and HPM** with price and volume increases in tandem
- BU PBR with continued shift to high performance rubbers
- BU TRP with strong contribution from Keltan EPDM business, other products with lower volumes (HNBR, EVM)
- Shift to new Keltan EPDM grades (BU TRP) adds to portfolio effect, while burdening volume effect
- Capex increase in line with announced growth projects

Sales by BU

Sales bridge yoy [€ m]

* Net of capitalized borrowing costs
** HPM (High Performance Materials) formerly named SCP (Semi-Crystalline-Products)

Advanced Intermediates: Solid agro performance vs. strong basis in previous year

EBIT	59	54
Depr. / Amort.	16	16
EBITDA	75	70
EBITDA pre exceptionals	**75**	**70**
Margin	18.0%	16.3%
Capex*	**13**	**15**

- Sales increase due to solid pricing, compensating slight volume decline
- Raw material inflation offset by price increases
- BU AII with strong demand in aromatic network (agro), slightly weaker in benzyl products and polyols (coatings, construction)
- BU SGO with strong demand from healthy agro business; continued pharma softening
- Solid margin compares to very strong previous year
- Capex increases due to growth projects (e.g. Menthol)

EBITDA pre exceptionals	**90**	**83**
Margin	16.2%	14.9%
Capex	**14**	**11**

- Stable sales as positive pricing combined with acquisition contributions mitigate volume declines
- BU IPG with sequential recovery (construction), yoy however weaker; maintenance shutdowns additionally burden volumes
- BU LEA contribution impacted by unstable CO_2 supply
- BU RUC with lower volumes (Antioxidants), BU FCC with ongoing weakness in colorants (E&E)
- Positive yoy contribution from BUs MPP, RCH and ION
- EBITDA margin burdened by lower volumes

LANXESS

Agenda

- Executive overview Q1 2012
- Business and financial review Q1 2012
- **Outlook / Guidance**

LANXESS is confident for 2012

Current macro view

- Less dynamic growth rates in emerging markets; but on a more sustainable level
- Positive signals for US macro development
- Solid agro end market trend to continue
- Gradual recovery of construction market expected
- Ongoing uncertainties: high national deficits, volatile FX, raw material price volatility and some cautiousness among European customers

LANXESS well positioned for growth

- Several capacity expansions to come on stream
- Tire labeling regulation in EU and South Korea end of 2012
- Strong start in 2012 – we expect FY EBITDA pre growth of 5-10%

LANXESS

Successful pricing strategy for 7 years

Raw material effects offset year-by-year

- Premium high-tech products
- “Price-before-volume” strategy
- Customer-orientation
- Focused and experienced team
- Seven years track record of managing volatile input costs
- Effective pricing is a key element of LANXESS’ strategy
- “Price-before-volume” intact even in Q4 2011 with decreasing raw material prices

Pricing strategy effective with both rising and falling raw material costs

LANXESS

Raw material prices to remain volatile

Global raw materials index*

- Raw material prices have increased since start of 2009
- Feedstock prices (mainly Butadiene and Cyclohexane) rose in 2011 despite a sharp decline in H2 2011
- Since the start of 2012, raw material prices (mainly butadiene) increased again; expected to continue their rise in Q2 2012

LANXESS committed to "price-before-volume" strategy

* Source: LANXESS, average 2008 = 100%

LANXESS

New plant for Butyl in Singapore fully on track

Key points

- Construction of 100kt butyl rubber plant on schedule
- Start-up in Q1 2013
- €400 m investment
- Installation of infrastructure completed – major assets on site
- All major vessels installed
- Currently more than 2,000 workers active on site

Strong growth rates for passenger cars in China set to fuel future tire demand

Megatrend mobility is intact

Key aspects

- Number of cars per 1,000 inhabitants will quadruple in next 10 years
- CAGR of 14.9%
- Market potential of 1.3 bn inhabitants in China
- Growing middle-class drives demand for cars
- Following US, China is already the second largest car market

By 2020, car ownership in China will reach half of a mature market's rate
