LewaPlus® – installation guide

LewaPlus® is a program used for modelling and dimensioning of diverse ion exchange systems utilizing **Lewatit®** resins. The **LewaPlus®** design software is unique and well-established in the ion exchange industry, since it offers not only the option to treat one stream after another (one-dimensional), but also to design complex treatment systems (two-dimensional) with different technologies. This installation guide provides you with the information needed to ensure that the software can be installed on your device.

At a glance

License costs	None
Platform compatibility	Windows
Available languages	10
Available ion exchange technologies	Water demineralization, food and beverage ingredients demineralization, softening and dealkalization, IX system check, condensate polishing
Available documents	Technical data sheets, material safety data sheets, technical service bulletins
Target groups	OEMs, end users, consultants, etc.
Users	> 6,000
Countries of use	> 100

General

- **LewaPlus®** is a 32-bit Windows desktop application compatible with all Windows versions starting with Windows 7
- Designed in-house by LANXESS. No external party is involved in relevant parts of the programming
- Support and technical expertise are provided directly by LANXESS, in case of any questions or problems, please contact the **LewaPlus®** support via lewaplus@lanxess.com

LewaPlus®

Setup variants

Main version

- Installation possible for 'All users' using administrative rights
- Default installation location is C:/Program Files (x86)/LewaPlus2/
- Installation possible 'Only for me' using standard user rights
- Default installation location is C:/Users/%username%/AppData/Local/Programs/LewaPlus2
- User data will be stored in
 - User database/settings C:/Users/%username%/AppData/Roaming/LewaPlus2
- Manually downloaded additional documents (e.g. product data sheets): C:/Users/%username%/AppData/Local/LewaPlus2

Portable version

- Default installation location is C:/Users/%username%/LewaPlus2-Portable
- User data will be stored in the installation location
- The portable version can be installed on USB thumb drives or other external data storage devices

Internet/network access

- All LewaPlus® features requiring internet access are optional (data sheet download, automatic software update, currency conversion rates update)
- LewaPlus® core features can be used without network access

Data management

Project and design data

- Projects are stored locally in the user database
- Data can only be exchanged by exporting designs as .lxf (LewaPlus exchange file) or PDF formats. **There is no automatic data upload to LANXESS.**

■ Product and safety data sheets (optional)

- LewaPlus® offers the possibility to download data sheets in PDF format from our web server. The downloaded files are stored in the user data directory according to the chosen setup variant. Downloads have to be performed manually by the user.

■ Automatic update (optional)

- The automatic update feature can check for new versions of LewaPlus® and download the setup file from our web server. This feature is optional and can be disabled. Updates can also be performed manually by downloading the setup directly from our website.

■ Currency conversion rates update (optional)

- Cost can be calculated using a variety of currencies. The currency conversion rates can be updated. The conversion rates can be obtained online from <https://treasury.un.org/operationalrates/xsql2XML.php>

We are happy to support your business. Please contact us for additional information at: visit www.lewatit.com

Health and Safety Information: Appropriate literature has been assembled which provides information concerning the health and safety precautions that must be observed when handling the LANXESS products mentioned in this publication. For materials mentioned which are not LANXESS products, appropriate industrial hygiene and other safety precautions recommended by their manufacturers should be followed. Before working with any of these products, you must read and become familiar with the available information on their hazards, proper use and handling. This cannot be overemphasized. Information is available in several forms, e.g., material safety data sheets, product information and product labels. Consult your LANXESS representative in Germany or contact the Health, Safety, Environment and Quality Department (HSEQ) of LANXESS Germany or - for business in the USA - the LANXESS Product Safety and Regulatory Affairs Department in Pittsburgh, PA.

Regulatory Compliance Information: Some of the end uses of the products described in this publication must comply with applicable regulations, such as the FDA, BFR, NSF, USDA, and CPSC. If you have any questions on the regulatory status of these products, contact your LANXESS Corporation representative, the LANXESS Regulatory Affairs Manager in Pittsburgh, PA or the Health, Safety, Environment and Quality Department (HSEQ) of LANXESS Deutschland GmbH in Germany. The manner in which you use and the purpose to which you put and utilize our products, technical assistance and information (whether verbal, written or by way of production evaluations), including any suggested formulations and recommendations are beyond our control. Therefore, it is imperative that you test our products, technical assistance and information to determine to your own satisfaction whether they are suitable for your intended uses and applications. This application-specific analysis must at least include testing to determine suitability from a technical as well as health, safety, and environmental standpoint. Such testing has not necessarily been done by us. Unless we otherwise agree in writing, all products are sold strictly pursuant to the terms of our standard conditions of sale. All information and technical assistance is given without warranty or guarantee and is subject to change without notice. It is expressly understood and agreed that you assume and hereby expressly release us from all liability, in tort, contract or otherwise, incurred in connection with the use of our products, technical assistance, and information. Any statement or recommendation not contained herein is unauthorized and shall not bind us. Nothing herein shall be construed as a recommendation to use any product in conflict with patents covering any material or its use. No license is implied or in fact granted under the claims of any patent.
