- A quick tutorial on how to replay and respond to your customer
- Side-by-side comparison of standard account and Enterprise account
- The Supplier Success Session Portal to register for an upcoming live demo
- A pre-recorded overview and demo of standard account

FAQ

FAQ

Q: What is Standard Account capability on Ariba Network?

A: Ariba Network, standard account capability is a new, fast, free way to automate business with any buyer. Support for most transaction types helps maximize efficiency and meet buyer compliance requirements. There is no need to upgrade, unless you are ready for advanced capabilities such as support for catalogs, back-end integration or to manage larger document volumes through online access

Q: How can I access this new capability?

A: Your customer must send you a standard account invitation to transact with them using this methodology. Or if you self register on Ariba Network, SAP Ariba Discovery or you are invited to SAP Ariba Sourcing solutions and do not have or use an existing account (ANID) you can register & will be started at the Ariba Network, standard account capability level. In the latter case you will not exchange orders & invoices with your customer unless they establish a relationship with your account first but you can use other functionality.

Q: What document types are supported for this free account?

A: Suppliers transact unlimited documents such as orders, order confirmation (OC), advance ship notices (ASN), and service entry sheets (SES), PO-invoices using PO-Flip (convert orders into an e-invoice with the simple click of a button), non-PO invoices and credit memos, invoice status notifications, payment proposals, and remittance details.

Q: What if I have already signed up for Ariba Network? Can I switch to Standard Account?

A: If you are already using Ariba Network with a buyer, we recommend that you continue using this transaction method. There is no direct way to change an Ariba Network subscription (Enterprise account) to a standard account.

Q: Am I required to register on Ariba Network to use Standard Account?

A: Yes. You will be sent an interactive email from your buyer. To respond you must register for a free standard account. This free account is not the same as a Enterprise Ariba Network account. You only need to upgrade to a enterprise account on Ariba Network when you determine that you desire the additional functionality.

FAQ

Q: How do I invoice a purchase order if I lose the email notification?

A: If you misplace a purchase order (PO) email notification, you have the following options:

- Resend the PO email: Log in to your [Ariba Network](#) standard account. In the PO list on the home dashboard of your account, click *Select > Send me a copy* to take action in the *Action* column next to the PO.
- Request a manual copy of the PO from your customer: After you have a copy of the PO, you can create and submit a non-PO invoice.

Q: How do I create documents against purchase orders from my customer?

A: To process a purchase order, you need to click the *Process Order* button in the purchase order email notification.

After you [register](#) or log in to your Ariba Network standard account, you are taken to the purchase order details page, where you can create documents like order confirmations, ship notices, and invoices against the purchase order.

Q: How do I add purchase orders to my existing Ariba Network Account?

A: If you've previously registered a standard account or enterprise account on Ariba Network to transact with a different customer, you have the option to add the transactions with your new customer to your existing account.

To add your new purchase orders to your existing account:

1. In the purchase order email notification, click *Process order* and then click *Log in* on the standard account landing page.
2. Log in with the administrator username and password for the existing account.

Q: What should I do if my registration confirmation link is expired?

A: If the confirmation link expired immediately after receiving the email, please log in to your account directly at <https://supplier-2.ariba.com>

If the confirmation is accepted, you will be able to view your account. If you are unable to access your account, you can request to resend the confirmation email.
