

LANXESS presents leather fashion trends for the spring-summer season 2021

Cologne – Specialty chemicals company LANXESS, one of the world's leading manufacturers of leather chemicals, is unveiling leather trends for the spring-summer season 2021. With this forecast, the manufacturer is giving its customers a real competitive advantage. An overview with descriptions and the assigned colors is now available at

<http://leather.lanxess.com/leather-service-center/downloads/>.

In January 2020, LANXESS will present a custom-made collection with leather patterns showing the innovations for the spring-summer season 2021. The patterns reflect future leather fashion in terms of colors, textures, feel and overall appearance. The recipes and practical processing instructions in the sample collection provide tanners with valuable tips on how to implement the new trends.

Detailed information on LANXESS products for the leather industry can be found at <http://leather.lanxess.com>.

LANXESS is a leading specialty chemicals company with sales of EUR 7.2 billion in 2018. The company currently has about 15,500 employees in 33 countries and is represented at 60 production sites worldwide. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, additives, specialty chemicals and plastics. LANXESS is listed in the leading sustainability indices Dow Jones Sustainability Index (DJSI World and Europe) and FTSE4Good.
