TO WHOM IT MAY CONCERN

REACH

Information on the registration of monomers and additives used for the production of polymer products

Please note that this statement refers to the always latest official statement regarding the registration of LANXESS Ion Exchange Resins under REACH Regulation 1907/2006.

Polymers are exempt from regulation, regardless as to where they are used.

The monomers forming the polymer have to be registered by the monomer manufacturer or importer equal to, or above 2 % by weight, if the total quantity of such monomer substance makes up 1 MT or more per year.

Additives used for the production of polymer products have to be registered if the imported quantity sums up to 1 MT or more per year.

LANXESS is using raw materials for the production of polymer products which are registered by its manufacturer or importer.

Yours sincerely,
LANXESS Deutschland GmbH
