REACH

Registration Phase III

Ladies and gentlemen,

We are pleased to inform you that we have successfully completed the third and last transition phase (phase III) within REACH comprising the registration of substances in volumes of between 1 to 100 t/a.

The European regulation on the registration, evaluation, authorization and restriction of chemicals (REACH Regulation)* regulates the registration of substances manufactured in or imported into the European Union in quantities of more than one metric ton per year.

Since REACH came into force, about 1000 substance dossiers have been submitted by the Legal Entities of the LANXESS Group to the European Chemicals Agency in Helsinki (ECHA).

For registered substances in our product range we will inform you of the assigned REACH registration numbers via updated safety data sheets (SDS).

You will receive an extended safety data sheet (eSDS) for each registered substance meeting the criteria for classification which will contain exposure scenarios for registered (identified) uses.

In registering our substances we have included all substance-specific uses by our customers that are known to us. Many thanks for your support and for the information you provided.

Please note the following special cases: An eSDS does not need to be generated for substances not subject to labeling requirements or substances registered as intermediates in accordance with REACH Article 17 or 18.

VAT ID no. DE 814 000 384

Polymers — like Ion Exchange Resins — are exempted from the obligation to register under REACH. For this reason you will also not receive an eSDS for any of our polymer products (plastics/ rubber/ ion exchange resins).

The REACH relevant substances used for the production of polymers come from registered sources if you obtain products from LANXESS Deutschland GmbH.

We reserve the right to review our product portfolio on account of REACH. We will naturally inform you in good time of any changes in this respect.

Please do not hesitate to get in touch with your usual contacts if you have any questions.

Mit freundlichen Grüßen
LANXESS Deutschland GmbH

This information and our technical advice — whether verbal, in writing or by way of Wals — are given in good faith but without warranty, and this also applies where proprietary rights of third parties are involved. Our advice does not release you from the obligation to check its validity and to test our products as to their suitability for the intended processes and uses. The application, use and processing of our products and the products manufactured by you on the basis of our technical advice are beyond our control and, therefore, entirely your own responsibility. Our products are sold in accordance with the current version of our General Conditions of Sale and Delivery. Our products to be delivered according to an order confirmation have been registered according to EC Regulation 1907/2006 (REACH Regulation), or are excluded from the REACH Regulation, or are exempted from registration according to the REACH Regulation.
