Cologne, May 17, 2024 – Biosecurity via cell phone or tablet: Specialty chemicals company LANXESS has developed a new app for farmers and veterinarians to enable them to protect livestock quickly and effectively in the event of disease outbreaks.

The LANXESS Biosecurity Solutions app offers a variety of functions that are specially tailored to the needs of farmers and veterinarians:

- **Product finder:** With the product finder, users can quickly and easily select the biosecurity products suitable for their individual requirements. This takes into account the portfolio available in their country as well as local animal husbandry requirements and health regulations.
- **Push notifications:** Push notifications inform users in real time about disease outbreaks and their development in their respective country. This allows users to react quickly and protect animal health.
- **Volume calculator:** The volume calculator helps you to calculate the optimum dosage of cleaning agents and disinfectants. The correct dosage not only increases the efficiency of cleaning processes, but also ensures animal health and compliance with hygiene standards.
- **Document library:** The app provides access to an extensive document library with technical data sheets, brochures and guidelines. Farmers and veterinarians can thus access important information at any time and expand their specialist knowledge.

The LANXESS Biosecurity Solutions app is now available for iOS and Android devices and as a web app and can be downloaded free of charge from the App Store and Google Play Store.

Detailed information about the app is available at <https://lanxess.com/en/Products-and-Brands/Industries/Biosecurity-Solutions>.

LANXESS is a leading specialty chemicals company with sales of EUR 8.1 billion in 2022. The company currently has about 13,000 employees in 32 countries. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, additives and consumer protection products. LANXESS is listed in the leading sustainability index Dow Jones Sustainability Index (DJSI World and Europe).

Forward-Looking Statements

This company release contains certain forward-looking statements, including assumptions, opinions, expectations and views of the company or cited from third party sources. Various known and unknown risks, uncertainties and other factors could cause the actual results, financial position, development or performance of LANXESS AG to differ materially from the estimations expressed or implied herein.
