

LANXESS raises prices for diphenylamine and alkylated diphenylamine

Cologne, March 17, 2026 – Specialty chemicals company LANXESS is implementing a price increase of 50 percent or more for alkylated diphenylamine (ADPA) and diphenylamine (DPA) with immediate effect for all noncontractual volumes.

This move comes in response to significantly higher costs for energy, critical raw materials, and logistics amid ongoing geopolitical tensions.

Despite intensive efforts to mitigate cost increases and maintain stable prices, an adjustment is necessary to ensure the long-term reliability and sustainability of supplies.

LANXESS is a leading specialty chemicals company with sales of EUR 6.4 billion in 2024. The company currently has about 11,800 employees in 32 countries. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, additives and consumer protection products. LANXESS has achieved leading positions in the Dow Jones Best-in-Class Index and the MSCI ESG and ISS ESG ratings, among others, for its commitment to sustainability.
