OUR BIOCIDES PROTECT WOODEN SURFACES

LANXESS is a leading supplier of active ingredients for wood protection. Our customers can choose from a broad range of fungicidal and insecticidal substances to protect wood and wood-based materials from wood-destroying fungi, insects and termites as well as staining fungi and mould.

The portfolio described in this brochure comprises biocides and biocidal concentrates for the manufacture of wood preservatives used for the protection of wood in outdoor situations, including exposure to weathering and constant soil contact (use classes 2 to 4). Applications include industrial processes like dipping, double vacuum and pressure/vacuum treatment.

LANXESS has the capabilities to develop customized solutions based on a broad portfolio and excellent technical support.

- High quality products
- HSEQ implementation
- Dedicated customer service
- Flexible and innovative solutions
- Strong brands
- Broad regulatory expertise

REGULATORY SUPPORT TO REGISTER YOUR WOOD PROTECTION PRODUCTS IN YOUR PREFERRED REGIONS

The constantly changing regulatory environment makes it difficult for formulators to stay up-to-date. Our regulatory experts are actively involved in a number of regulatory committees and continuously in close contact with registration authorities. Thus, LANXESS always keeps pace with the latest developments, and can give up-to-date information and advice.

EUROPE

Our active ingredients for wood protection uses are included in the ECHA Article 95 List for Product Type 8 (Wood Preservatives). LANXESS can provide letters of access to the relevant active substances data which you need for your own product authorizations.

USA

The portfolio offered in USA is registered according to the EPA requirements for manufacturing use (MUP); in some cases additionally for end use (EUP).

APAC

Selected active ingredients are registered under the Japanese JWPA scheme. LANXESS holds national registrations in other Asian countries, too.

Please contact our local sales force for details. If you have any question, our experts will be pleased to support you.

Table 1: Active ingredients for PT 8 Use (availability depending on region and regulations)

Product	Active ingredient(s)	Appearance	Function	Region/Country
Evipol®	Cyproconazole	Powder	Fungicide	APAC
Preventol® A 12	Propiconazole	Viscous liquid	Fungicide	Global
Preventol® A 12-TK 20	Propiconazole + IPBC	Solution	Fungicide	Europe; APAC
Preventol® A 12-TK 50	Propiconazole in DPM	Solution	Fungicide	Global
Preventol® A 16	Triadimefon	Powder	Fungicide	APAC
Preventol® A 20	Tebuconazole + Triadimefon	Powder	Fungicide	APAC
Preventol® A 8	Tebuconazole	Powder	Fungicide	Global
Preventol® A 800	Penflufen	Powder	Fungicide	Europe; USA
Preventol® A 800-CE 15	Penflufen	Liquid	Fungicide	Europe; APAC
Preventol® HS 75	Permethrin	Solution	Insecticide	Europe; APAC
Preventol® HS 75-S 50	Permethrin in Solvesso 100	Liquid	Insecticide	Europe; APAC
Preventol® MP 100	IPBC	Powder	Fungicide	Global
Preventol® TM	Imidacloprid	Powder	Insecticide	APAC; USA
Preventol® TM-CE 25	Imidacloprid	Solution	Insecticide	APAC; USA

**AT LANXESS ACTIVE INGREDIENTS COME ALONG WITH
DEDICATED REGULATORY AND TECHNICAL SUPPORT**

**WORLDWIDE TECHNICAL
SUPPORT FROM OUR
LABORATORIES**

LANXESS provides dedicated regulatory and technical support to its customers.

Our roots go back to 1907, when we marketed antimicrobial active ingredients for the first time. Dedicated colleagues, extensive research and development as well as several acquisitions have made us who we are today – one of the world's leading companies for biocides in wood protection.

Our laboratories offer microbiological tests, analytical studies, stability and performance tests. Our experienced experts support you with technical advice, guide recipes and analytical methods in order to enable you to develop or optimize your product portfolio.
