Management practices above and beyond the legal requirements

LANXESS views compliance with laws and ethical principles as the basis of sustainable corporate governance. Our employees' integrity and awareness of their responsibilities are key factors in the success of our company. Compliance with laws, social responsibility, sustainable environmental protection, and occupational, plant and product safety are an essential part of our corporate culture. The Code for Legal Compliance and Corporate Responsibility at LANXESS, which is applicable throughout the Group, specifies minimum standards and gives employees advice and guidance on complying with these standards. This code can be viewed on our website at <http://www.lanxess.com/> under the menu item Corporate Responsibility/Responsibility/Sustainable Management.

An effective compliance management system has been established to implement the compliance code. This system was globally audited in 2012 by Deloitte & Touche GmbH, which applied the AuS 980 standard promulgated by the Institut der Wirtschaftsprüfer (IDW – Institute of Public Auditors in Germany). The system was rated favorably, and there were no objections. Components of this system include a compliance organization that is integrated into the overall LANXESS Group organization, risk identification and assessment, a compliance program (comprising directives, hotlines, training, knowledge sharing, compliance reporting and guidance on responding to observed breaches of compliance), and measures for monitoring the overall compliance situation within the LANXESS Group. The objective is to prevent breaches of compliance and to create and foster a culture of

compliance. LANXESS does not tolerate breaches of compliance and enforces observance of the provisions of its compliance code.

As an international specialty chemicals enterprise, LANXESS bears a large degree of responsibility toward people and the environment. Our entrepreneurial activities reflect this sense of responsibility. Safety, environmental protection, social responsibility, quality and economic efficiency are all key corporate goals at LANXESS. The company's objective is sustainable, forward-looking development which meets the demands of economics, ecology and society in equal measure. The greatest benefits of our corporate responsibility activities are achieved if they are balanced with entrepreneurial and, especially, economic objectives. They must therefore be linked to our core business or to our available expertise. An overview of the implementation of corporate responsibility at LANXESS can be downloaded from the Corporate Responsibility pages of our website at <http://www.lanxess.com/>. Additionally, LANXESS joined the United Nations Global Compact initiative in July 2011 and has supported and consistently applied the Responsible Care® Global Charter adopted by the International Council of Chemical Associations (ICCA) since 2006.

LANXESS has supplemented German legislation prohibiting insider trading with a Group-wide insider directive. This defines rules of conduct for trading in the company's securities so that insider trading violations can be avoided. The names of persons with authorized access to insider information required for the performance of their professional duties are included in an insider register that is regularly updated. The directive also stipulates the reporting and disclosure obligations for transactions with LANXESS shares (directors' dealings).

Corporate policies on other important issues such as occupational safety and diversity are implemented throughout the Group on the basis of Board of Management initiatives. With its Diversity & Inclusion initiative, LANXESS aims to promote equal opportunity for employees and facilitate work/life balance. Additional information is available on our website at <http://www.lanxess.com/> under the menu item About LANXESS/Who we are/Diversity & Inclusion.

Work of the Board of Management and Supervisory Board

LANXESS AG is a company established under the laws of Germany. One of the fundamental principles of German stock corporation law is the dual management system with the governing bodies of management board and supervisory board. This system is characterized by a clear separation between the management board as the body that manages a company and the supervisory board as the body that advises and oversees management. Concurrent membership on both boards is strictly prohibited. The management board and the supervisory board work closely together in a relationship of mutual trust for the benefit of the company.

The management board is appointed to manage and represent the company. It is responsible for conducting business in the company's interests with the goal of creating sustainable value. The principal tasks of the management board include defining the company's goals and strategic alignment, managing and overseeing the operating units, setting human resources policy, arranging the company's financing, and establishing an effective risk management system. It is also responsible for preparing the quarterly and half-year financial statements, the financial statements of LANXESS AG, the consolidated financial statements of the LANXESS Group and the combined management report for LANXESS AG and the LANXESS Group.

After mutually agreed termination of Dr. Axel C. Heitmann's appointment as member and Chairman of the Board of Management, the Board of Management of LANXESS AG currently comprises of three members. Those are Dr. Werner Breuers, Dr. Bernhard Düttmann and Dr. Rainier van Roessel. Information about the members of the Board of Management is available on our website at <http://www.lanxess.com/> under the menu item Investor Relations/Corporate Governance/Board of Management. The Supervisory Board appointed Mr. Matthias Zachert as member and Chairman of the Management Board of LANXESS AG initially as of May 15, 2014. Henceforth, the Supervisory Board decided with mutual consent of Mr. Zachert, that he now will take over his responsibilities as of April 1, 2014. Until Mr. Zachert joins the Board of Management, Dr. Düttmann performs the responsibilities of the Chairman of the Management Board.

The Chairman coordinates the work of the Board of Management. As a rule, Board of Management decisions are adopted with a simple majority. In the event of a tie, the Chairman has the casting vote. Resolutions of the Board of Management are generally passed at regularly held meetings. The rules of procedure for the Board of Management that are enacted by the Supervisory Board contain further regulations concerning the form of cooperation within the Board of Management, the allocation of duties and the matters requiring resolution by the full Board of Management. In deciding the composition of the Board of Management, the Supervisory Board gives consideration to professional suitability, leadership qualities and diversity.

The Supervisory Board's role is to advise the Board of Management in its management of the company and to monitor its conduct of the business. The Supervisory Board discusses business performance, planning and strategy at regular intervals. Its responsibilities also include appointing the members of the Board of Management as well as reviewing the financial statements of LANXESS AG and the consolidated financial statements of the LANXESS Group. The Supervisory Board reaches its decisions with a majority of the votes cast unless a different majority is stipulated by law. In the event of a tie, the Chairman of the Supervisory Board has two votes in a second ballot on the resolution, even if this also results in a tie. The German Codetermination Act contains special requirements concerning resolutions. The Chairman of the Supervisory Board coordinates the work in the Supervisory Board, chairs its meetings and represents the concerns of the body externally. Supervisory Board resolutions are usually adopted at regularly held meetings.

The Supervisory Board has issued its own rules of procedure, which, in addition to defining the tasks and responsibilities of the Supervisory Board and the personal qualifications of its members, establishes the processes for convening, preparing and chairing meetings as well as the procedures for voting.

The Board of Management reports to the Supervisory Board on a timely and comprehensive basis about the progress of business and the situation of the Group, including potential risks and relevant issues relating to corporate planning. The Supervisory Board has laid down the Board of Management's notification and reporting requirements in detail in its rules of procedure. The Chairman of the Board of Management regularly exchanges information with the Chairman of the Supervisory Board in order to discuss matters of strategy, planning, business performance, risks, risk management and compliance. Certain transactions and measures of major or long-term importance require the Supervisory Board's approval. Measures requiring approval include, but are not limited to: adoption of the corporate planning; the acquisition, sale or encumbrance of real property, shareholdings or other

assets; borrowings and certain other types of financial transactions. Thresholds have been set for some of these transactions.

It prepares the Supervisory Board's resolutions concerning the financial statements of LANXESS AG and the consolidated financial statements of the LANXESS Group and recommends an auditor whom the Supervisory

The Nominations Committee solely comprises stockholder representatives and proposes candidates for the Supervisory Board to nominate for election as new members of the Supervisory Board by the Annual Stockholders' Meeting. The members of this committee are Dr. Stomberg (Chairman), Dr. Janssen and Mr. Walthie.

The respective committee chairmen report regularly to the Supervisory Board on the work of the committees.

Stockholders and stockholders' meetings

The stockholders of LANXESS AG exercise their rights at the Annual Stockholders' Meeting, where they can vote on the resolutions submitted. The Annual Stockholders' Meeting resolves on all matters reserved for its decision by law, with binding effect on the stockholders and the company. Each share confers one vote.

The items resolved on by the Annual Stockholders' Meeting include appropriation of the balance sheet profit, ratification of the actions taken by the members of the Board of Management and the Supervisory Board, appointment of the auditors and election of the stockholder representatives to the Supervisory Board. The Annual Stockholders' Meeting also resolves on amendments to the articles of association, measures affecting the company's capital and the approval of intercompany agreements. Each year there is an Annual Stockholders' Meeting at which the Board of Management and Supervisory Board give an account of the last fiscal year. The German Stock Corporation Act requires the convening of an Extraordinary Stockholders' Meeting in certain situations.

All stockholders who register in time and prove their eligibility to attend the Annual Stockholders' Meeting and exercise their voting rights shall be allowed to participate in the Annual Stockholders' Meeting. Stockholders may exercise their voting rights at the Annual Stockholders' Meeting in person, through a proxy of their own choosing or through a company-nominated proxy who acts according to their instructions.
