Soft result despite price pass-through – Volumes held back by various logistic limitations

- Sales increase driven by higher prices due to raw material and energy price pass-through in both BUs, positive FX
- Logistic constraints burden volumes especially in BU IPG
- EBITDA pre and margin impacted by time lag in price pass-through and lower utilization on planned maintenance turnarounds in BU AII

Specialty Additives

Earnings benefit from continued price catch-up – All BUs contribute, BU PLA delivers especially well

- Improved sales in all BUs, driven by strong pricing and FX
- Volumes remain on high level compared to strong previous year base but continuously held back by logistic constraints
- Ongoing recovery in aviation and oil & gas industry
- Continued price catch-up and positive FX development supports EBITDA pre and margin increase

Consumer Protection

Portfolio effect shapes results – BU F&F integration well on track

- Significant sales increase due to portfolio, successful pricing and FX
- Volumes impacted by logistic challenges
- Increased EBITDA pre due to successful pricing and contribution from acquired EKC business
- Margin held back by lower volumes and energy price driven top line inflation
